

Name : C.BALAJI

Team ID : PNT2022TMID30984

Project Name : Digital Naturalist - AI Enabled tool for Biodiversity Researchers

The screenshot displays the IBM Cloud Dashboard in a web browser. The browser's address bar shows 'cloud.ibm.com'. The dashboard header includes a search bar, navigation links for 'Catalog', 'Manage', and 'Balaji C's Account', and a 'Paused' status indicator. The main content area is titled 'Dashboard' and features a 'For you' section with eight recommended actions, each with a 'Getting started' button and a duration. These actions include: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Explore IBM Cloud Shell' (Try a command-driven approach for creating, developing, and deploying a web project), 'Create a custom dashboard' (Create a shareable dashboard that you can customize with widgets, scope, and your own layout), 'Welcome to IBM Cloud' (Learn about the features of IBM Cloud and explore the console capabilities), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a Virtual Private Cloud (VPC)' (Upgrade to a paid account to create your own protected space in the IBM Cloud), and 'Get Started with the CLI' (Install the IBM Cloud™ developer tools, which include the latest IBM Cloud CLI, verify the installation, and configure the environment). Below the 'For you' section, there are four main widgets: 'News' (with links to WebSphere Application Server Support Restatement, IBM Adds Lifecycle Services to Enterprise Networking and Deepens Strategic Partnership with Cisco, and All About IBM Storage's Price and Supply Guarantee), 'Recent support cases' (with a 'View all' link), 'Planned maintenance' (with a 'View all' link), and 'IBM Cloud status' (showing 'No issues' with a green checkmark). At the bottom, there are two more widgets: 'Usage' (with a 'View usage' link) and 'User access' (with a 'Manage users' link). The Windows taskbar at the bottom shows the search bar, several application icons, and the system tray with the date '14-11-2022' and time '20:38'.
