

& idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 10 minutes to prepare
- 1 hour to collaborate
- 2-8 people recommended

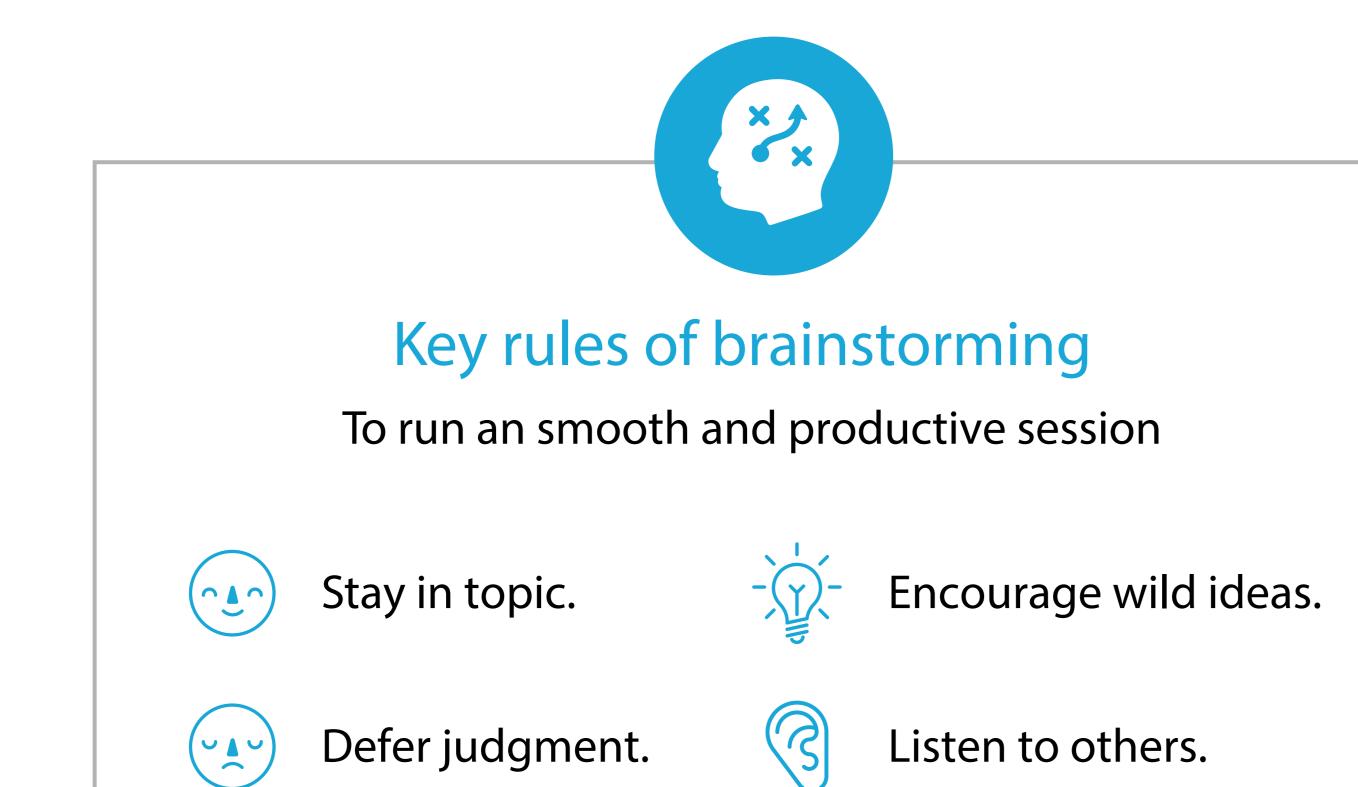

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

How might the Biodiversity researcher Identify Different Species of Flora and Fauna In Some Wild Spaces For his Research Purpose?

If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

① 10 minutes

J.Keshava Kumar			M.Kannar	M.Kannan		
To collect The Flower,plants and Animal Species images	Use Image Classification	To Build CNN model	To Collect all the Flora And Fauna species images	Use Computer Vision	Build the Computer Vision model	
To test the CNN model using the another images	To Predict The Flower and Plant spcies	To Predict The Animals Species	Create the mobile app	To implement that Model	To Detect Flora and fauna Species	
Save and implement the model in Web	To Build Web app using Flask	Upload the imag in Web app	And identify those Species	This could be a Handy tool for Bio diversity	It could detect only the learned objects	

K.Arun Kumar						
To Create a web Application	That contains a Data base	The database Are stored with all images				
To upload the	To store and	The database				

To Collect the Species images To Calssify the different species Use Data Visualization using python Use Data Visualization fauna Species That will looks the web attractive	C.Balaji		
the different looks the web about the	Species	Visualization	the Flora ar
species attractive species			are display about the

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

Importance If each of these tasks could get done without any difficulty or cost, which would have the most positive

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
